PREDECESSOR LONDON, Apr. 29 (Reuter) - The main theme of the editorials in the British newspapers is Herr von Ribbentrop's speech. The question is asked why he made it.

The Daily Telegraph says its Zurich correspondent reports a neutral as observing that "your best propaganda weapons are the German propagandists themselves.'

The Daily Telegraph adds that this expresses so well the effect which von Ribbentrop's latest propaganda exercise has produced that it is natural to ask what undisclosed purpose could have inspired such futility.

The Times think von Ribben trop's "speech was made for the benefit of the bewildered German public because the German reasons for the onslaught, upon a small neutral were proved by events to be completely untrue.

The Times adds that von Ribbentrop is being laughed out of Court by public opinion in the world. This is the man who told his master that Gout Britain only Buffs and not fights, that after the conquest of Poland she would eagerly accept his peace offer and that American supplies can be withheld from the Allies.

Having been proved mistaken on every one of these points, he still argued that France would leave Great Britain in the lurch (and directed his policy accordingly), that the Dominions would secede from the Mother Country and that the whole world would turn against Britain who was the oppressor of neutrals.

## THE CONTROL OF COMMUNICATIONS

THE OPERATIONS now taking place between the Allied and German forces in Norway have gradually assumed the shape for a con-

of Norway and are slowly securing their objective in their push from west to east from 'a point slightly to the south of Trondheim. Herr Hitler's only hope, therefore, appears to lie in his being able to make use of the numerous railways which run from Southern Sweden into Norway and to the North to relieve the position with suphis troops, which are now in danger of being cut off from communications with Germany. They have already been isolated along the coast and where they have been able to secure a foothold they may be starved out unless!

help comes to them swiftly. HERR HITLER'S demand railways, both for the purpose of sending assistance! and for securing the iron ore he needs has been flatly turned down. This will make it all the more necessary for the Nazis to strike at Sweden in an attempt to accomplish their objective with one quick blow. When this blow falls it will provide a waiting world with a true idea of the trend of feeling in Russia towards Nazi intentions.

# AN AMERICAN LOOKS AT THE WAR

## HAVE BEEN FOOLING OURSELVES FOR 20 YEARS"

Britain has never officially attempted to introduce any form of propaganda for the Allied cause in the United States of America. It has been suggested in many quarters that this is a mistaken policy and that by such inaction the Allies are allowing German claims and distortions to poison the mind of the American people against the

tive to this charge is a letter which appeared in the New York Times recently by an American citizen-Mr. Lawrence Hunt. As evidence of purely American thought, which is gradually finding expression in the United States, we reproduce this letter. (TO THE EDITOR OF THE NEW

YORK TIMES) PONTIUS PILATE STILL LIVES.

At the moment he exercises greater influence on our national thinking about foreign affairs than any other person living or dead. He strides the length

breadth of America, dinning hi immortal philosophy of neutrality into our minds and hearts. You can hear him on the platform, over the radio, in the club car, at women's club meetings and labour union gatherings. You can read his works in current books, in magazines and newspapers.

"Wash your hands," he says, "of this mess. "I did once, and saved myself a lot of work and worry. That was none of my business. This is none of yours. So wash your hands of it now."

## FOREIGN POLICY:

For the last 20 years we Ameri cans have been fooling ourselves. as Pilate tried to do in another practical situation, when we've talked about America's foreign policy. We still are. It's not surprising. We have been deluged with a constant stream of propaganda about the "Crime -Versailles," "We won the war and what did we get?" the pathetic spectacle of a gullible America caught in the wily intrigues Old World diplomacy, England expecting every American to do his duty, the "Merchants of Death" and the "Wall Street Bankers."

Today there's a new, but equally polluted, stream of propaganda luridly warning us against propagands. The unshot of it all is that the thinking of many honest people has become confused, their nerves langled and their emotions saded.

"And as a nation we have managed so far to escape from reality and the tough responsibilities of being a first-rate Power.

I DON'T MEAN THAT WE HAVE LOST THE PURITANICAL VICE OF PREACHING TO OTHERS. BUT WE HAVE FAILED TO EX-ERCISE THE PURITANICAL VIR-TUE OF DOING OUR SHARE-AND MORE, IF NEED BE-OF THE HARD, WORK OUR VERY GREATNESS REQUIRES OF US

## PURPOSE OF LETTER:

The purpose of this letter is to suggest briefly that we average citizens question some of these siogans and catch-phrases which are doing so much to paralyse the moral driving force of the American people. Too many of us have been doing our thinking on foreign affairs by proxy. A lot of us let the columnists do it.

I suggest that we stuff our ears for a while to the stately measures, the sounding brass and the tinkling cymbals of various of these. Maybe if we. do that we can hear ourselves think.

Long before Hitler made "Crime of Versailles" his favourite bed-time story to the German people, many of our "intellectuals" were talking and writing about it in fevered manner of a town gossip. Pseudo-historians. irresponsible journalists and disgruntled liberals who couldn't digest some of the rougher facts of SOMETHING "PHONY" life all did their bit. There was also some honest, intelligent and blind justified criticism of it.

As a treaty it had imperfections. having been drawn by imperfect men representing imperfect peoples, most of whom for four years peated phrase, "America has won had endured a war that was not exactly perfect. True, Germany lost some rather unprofitable colordes in Africa (in 1914, they accounted for less than one-half of 1 per cent, of her foreign trade). Alsace-Lorraine was restored to France. Any objections? The house hears none.

Suffice it to say that had Germany won, the Treaty of Versailles, in comparison with the German peace terms, would have seemed like the Sermon on the Mount.

There was one magnificent at tempt in the Versailles treaty for a better world-the League of Nations. Our President. Woodrow Wilson, fought hard for it. Those awful European nations, our recent associates, accepted it. America turned it" down. We wanted preach, not work, for a world of peace and ordered liberty.

## LET'S BE HONEST:

Yes, there's this and that and a thousand and one other things to be said about the "Crime of Versailles." I am merely suggesting a GUNMEN ABANDON few things to remember.

The fairest summary of America's participation at the Versailles Peace Conference was made by Clemenceau's right-hand man Tardieu: "A war won by four could the bombing outrage in the pressnot end in a peace dictated by

"But "We won the war." Sure we did. Almost single-handed. Almost. Let's try to be honest with ourselves so that we may be fair to others. Let's remember what England, and France and our other associates contributed to the winning of that
